

Microsoft Windows Defender Endpoint Protection

Purpose: This is a business antivirus software product that can be controlled over the network and will provide active protection. If you feel you may have a computer virus, run the Microsoft Forefront Endpoint Protection.

1. To start this scan, click the shield icon (On your task bar).

2. Choose “Virus and Threat Protection” and click the “Scan Now” button.

Virus & threat protection

View threat history, scan for viruses and other threats, specify protection settings, and get protection updates.

Threat history

Last scan: 6/17/2019 (quick scan)

0 34496
