Snippets

Snippets are a type of reusable content that insert predefined content into a page while editing. The snippet content is then edited in the WYSIWYG editor without affecting the original snippet file. Snippets are often used for pieces of content with specific formatting, such as tables, buttons, and displaying quotes or images. Using snippets for design elements ensures consistent styling across pages and is specific to your website design. For information about your specific snippets, refer to your developer notes or contact your school's web content administrator.

> **WHY SHOULD I BECOME AN ANIMAL CONTROL OFFICER?** ⊖
>
> Are you interested in maintaining the public safety by enforcing animal licensing laws and laws relating to the humane care of animals? If you are then a career as an Animal Control Officer (ACO) may be for you.
>
> Animal control officers are responsible for capturing and impounding dangerous or stray animals, investigating animal cruelty cases, enforcing licensing laws, providing testimony in court, rescuing animals in distress, writing reports, and providing humane care to animals.
