# Snippets

Snippets are a type of reusable content that insert predefined content into a page while editing. The snippet content is then edited in the WYSIWYG editor without affecting the original snippet file. Snippets are often used for pieces of content with specific formatting, such as tables, buttons, and displaying quotes or images. Using snippets for design elements ensures consistent styling across pages and is specific to your website design. For information about your specific snippets, refer to your developer notes or contact your school's web content administrator.
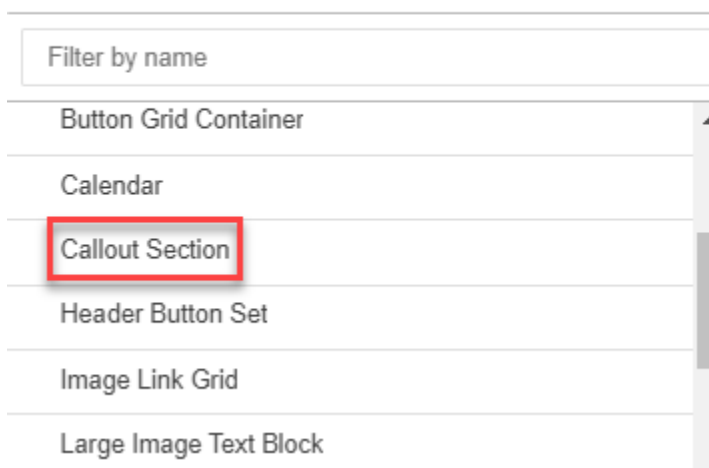

Callout Section

1. Login to the page to edit
2. Click **Edit**

3. Click one of the green edit buttons

4. Click the **Snippet** icon
5. Select **Callout Section**

6. Insert **Callout Section**

Callout Section (can only be used in fullwidth section)	
Section Heading (optional)	Enter text. All styling will be stripped. Architecture Student
Callout Section Image	Insert an image using the WYSIWYG toolbar. The system only reads the first image inside this cell.
Callout Section Heading	Enter text. All styling will be stripped. Robby Fayas
Callout Section Content	
Enter content freely using the WYSIWYG toolbar. It was my time at Gulf Coast that exposed me to the creative aspect of drafting, so that's what pushed me toward a career in architecture. - AA in Architecture

	"GCSC promotes a learning environment by providing quality education in a small friendly and inviting atmosphere that promotes comradery and academic excellence. While attending GCSC I had the opportunity to meet like-minded individuals that I now consider friends. The staff of GCSC is welcoming and approachable. The professors are supportive, attentive, and truly want their students to succeed."	Dedrica Streeter	Physical Therapist Student
