

NURSING – JOINT DEGREE PROGRAM

Gulf Coast Community College & Florida State University
Panama City, Florida

This course outline is to be used as a guide. Course offerings may vary from this schedule and the schedule may be adapted for a part-time commitment. Please refer to current catalog requirements and meet with an advisor from both institutions before starting a program of study. The RN program at GCCC is offered in the form of an Associate of Science Degree. This plan guides students to

completion of both the AA and AS program. Semester hours have been calculated assuming that foreign language has been taken in high school or as a prerequisite. Graduation from FSU requires either: two years of a high school foreign language or eight semester hours of a college level foreign language.
