Measure 5 CLAST Performance Non-College Preparatory	18
Measure 5 CLAST Test College Preparatory	19
Measure 5 CLAST Test Non-College Preparatory	20

INTRODUCTION

The Accountability Report was enacted by the Florida Legislature in 1993 as the State of Florida moved toward measuring performance and outcomes in instructional programs. The purpose of the Accountability Report is to assess the improvement and quality of the instructional and administrative efficiency of the Florida Community College System. This report is a key element in GCCC's institutional effectiveness assessment process.

The following measures were developed by the legislature to assess accountability.

Description of Measures

1. **Measure 1 Part 1: Prior Year High School Graduates Enrollment** - The number and percent of high school graduates the College enrolls from the previous year in its service area.
2. **Measure 1 Part 2: Retention and Success Report for Associate in Arts (AA), Associate in Science (AS), and Postsecondary Vocational Certificate (PSVC) Students** - The retention and success rates of first-time-in-college AA and AS degree seeking students and PSVC seeking students.
3. **Measure 2: Associate in Arts Degree Transfer Performance** - The performance of AA students after they have transferred to a Florida State University.
4. **Measure 3 Part 2: State Vocational Program Placement Report** - The number and percentage of students who completed and were placed into an occupation related to their instruction, and also the number and percentage of students who left and were placed into an occupation related to their instruction.
5. **Measure 4 Part 1: College Preparatory Success Rate Report** - The number and percent of first-time in-college students who failed some portions of their entrance exam, how many of those enrolled in the college preparatory classes, and the number and percent of those who passed the highest level college preparatory courses.
6. **Measure 4 Part 2: College Preparatory Retention and Success Report for Associate in Arts, Associate in Science, and Postsecondary Vocational Certificate Students** - The retention and success rates of first-time in-college AA and AS degree seeking students and PSVC seeking students, who have completed all college preparatory requirements.
7. **Measure 5: CLAST Performance Report** - The passing number and percent of students who attempted the CLAST or had a CLAST alternative for each CLAST subtest and for all subtests combined.

DEFINITIONS

Prior Year High School Graduates Enrolled the Following Year - The number and percent of previous year high school graduates that the college enrolls from its service district's high schools.

Associate in Arts Degree Transfer Performance - The performance of AA students after they have transferred to a Florida state university.

Vocational Placement Rates of Associate in Science and Certificate Program Completers and Leavers – The number and percentage of students who completed and were placed into an occupation related to their instruction, and also the number and percentage of students who left and were placed into an occupation related to their instruction.

College Preparatory Enrollment, Retention and Success for Associate in Arts, Associate in Science, and Postsecondary Vocational Certificate Students –The retention and success rates of first-time-in-college AA and AS degree seeking students and PSVC seeking students, who have completed all college preparatory requirements.

College Preparatory Success Rate - The number and percent of first-time-in-college students who failed some portions of their entrance exam, how many of those enrolled in the college preparatory classes, and the number and percent of those who passed the highest level college preparatory courses.

CLAST Performance - The passing number and percent of students who attempted the CLAST or had a CLAST alternative for each CLAST subtest and for all subtests combined.

Source: Cohort population includes first-time-in-college (FTIC) students from the beginning of the tracking period who took an entry level test, achieved 18 credit hours (AA and A.S) or 9 credit hours (PSVC) by the end of the tracking period and were seeking AA, AS and PSVC.

Number Graduated: Of the cohort, the number who graduated.

Number Enrolled in Good Academic Standing: Of the cohort, excluding the 'Number Graduated', the number of students still enrolled at the institution during the following terms with a GPA at or above 2.0.

Number Enrolled Not in Good Academic Standing: Of the cohort, excluding the 'Number Graduated', the number of students still enrolled at the institution during the terms, with a GPA below 2.0

Number who Left in Good Academic Standing: Of the cohort, excluding the 'Number Graduated', the number of students who were not enrolled at the institution during the terms, that had a GPA at or above 2.0

Retention Rate = (# Graduated + Enrolled in good Standing + #Enrolled Not in Good Standing) / Total Cohort

Success Rate = (# Graduated + Enrolled in Good Standing + #Left in Good Standing) / Total Cohort

CONCLUSION

Gulf Coast Community College continues its positive results on the accountability measures as established by the State of Florida. The excellent level of performance is evidenced by consistently high GPAs and non-college preparatory success rates that are higher than the Florida system averages in most areas measured. One critical area of needed improvement is evidenced by lower scores in the college preparatory area. Even though the college preparatory writing scores slightly improved, they are still below the Florida system-wide percentages, as are college preparatory reading and math.
