

## **Gulf Coast State College Social Media Policy**

Gulf Coast State College maintains official social media accounts to inform, connect, and engage with students, employees, and the community. These platforms are intended to foster a positive, inclusive environment that reflects the College's mission and values.

Our social media pages are limited public forums where respectful and relevant dialogue is encouraged. We welcome comments and questions, but we reserve the right to moderate content to maintain a safe and respectful online space for all users.

Posts or comments may be hidden or removed if they:

- Are off-topic or unrelated to the post
- Contain profanity, obscene, or sexually explicit content
- Share personal identifying or confidential information
- Use discriminatory, harassing, or threatening language
- Promote illegal activity or incite violence
- Compromise public safety or individual wellbeing
- Endorse political campaigns or candidates
- Advertise or promote unrelated commercial products or services

Users who repeatedly violate these guidelines may be blocked or reported in accordance with the platform's terms of service.

We strive to model respectful online conduct and expect all participants to engage responsibly. If you have a specific concern or complaint, we encourage you to reach out via direct message or contact the appropriate department directly.

Thank you for being part of the Gulf Coast State College online community.
