Criminal Background Checks

Gulf Coast State College (GCSC) students that are granted conditional acceptance into a Health Sciences program must receive a satisfactory criminal background check prior to final acceptance into the program. The background check will be scheduled and performed at the discretion of the Division to which the student has applied. Information and instructions on how to complete the background check will be sent by the applicable program coordinator.

Please Note: Criminal background checks performed through other agencies will not be accepted. Also, be aware that clinical agencies may require an additional background check prior to clinical access. Although background checks are required before program entry, it is possible to graduate from a program at GCSC and be denied the opportunity for licensure because of an unfavorable background check. Even if the student has been accepted into and completed a program at GCSC, this does not guarantee authorization for licensure or eligibility to take the licensure exam. Those authorizations are granted by the Health Sciences governing professional licensure boards. This is a notification to the applicant that Gulf Coast State College has no authority over any state-level medical licensure board and cannot be held responsible if the student is accepted into or completes a Health Sciences program and subsequently is denied authorization to take the program-specific licensure exam due to criminal background information.

An applicant must consider how his/her personal history may affect the ability to meet clinical requirements, sit for various licensure exams, and ultimately gain employment. Most healthcare boards in the State of Florida make decisions about licensure on an individual basis. You may visit the Florida Department of Health website at <https://www.floridahealth.gov/> for more information regarding licensure. We offer this information so that you can make an informed decision regarding your future.

Student applicants DO NOT complete background checks until provisionally accepted into the Surgical Technology Program. Information and instructions on how to complete the background check will be given to you during the Surgical Services Orientation prior to beginning the Fall semester.

Please read the following information carefully: Any student who has been found guilty of, regardless of adjudication, or entered a plea of nolo contendere, or guilty to, any offense under the provision of 456.0635 (see below) may be **disqualified** from admission to any Health Sciences program. In addition to these specific convictions, there are other crimes which may disqualify applicants from entering the Health Sciences programs and/or clinical rotations. The statute listed below can also be found online:
