

The new wireless system will be stronger, faster, and more secure.

When you go to connect to the wireless network, what you see is called the SSID. The new SSIDs will be:

**GCSC-Employee**

**GCSC-Student**

**Gulfcoast**

**Unsecured**

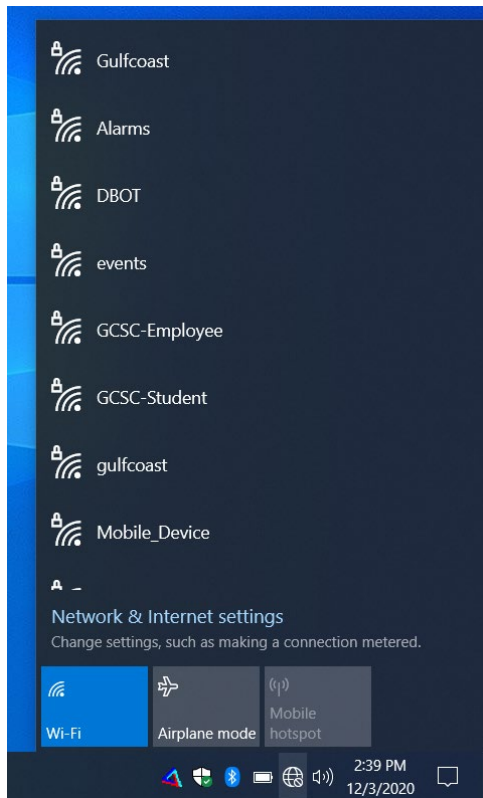

If you were using the SSID gulfcoast and you are an Employee, then you will use the **GCSC-Employee**.

Enter your user name and password as before.

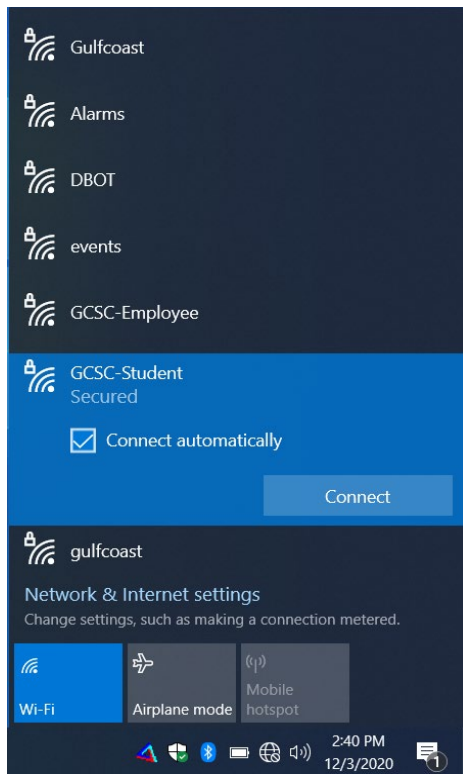

If you were using the SSID gulfcoast and you are Student, then you will use the **GCSC-Student**. Enter your user name and password as before.

If you were using the SSID **Events** the you will use the SSID **Gulfcoast** and put in the Events Password.

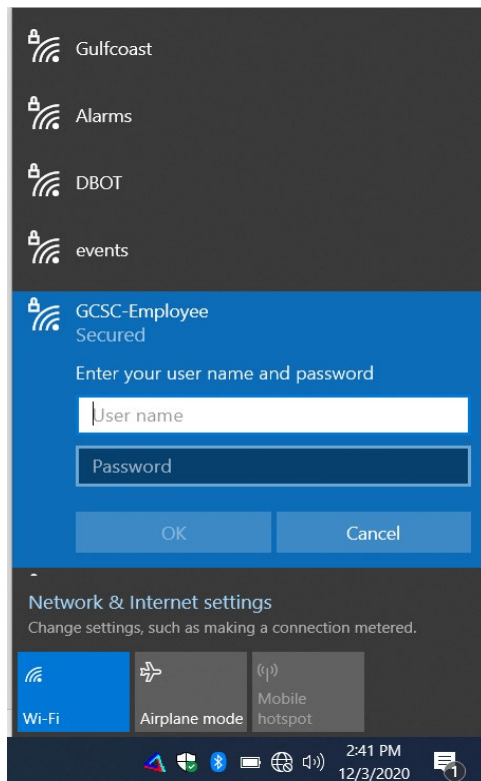

All users the are on the SSID Mobile\_Devices will have to bring the device to the Technical support area for resetting.

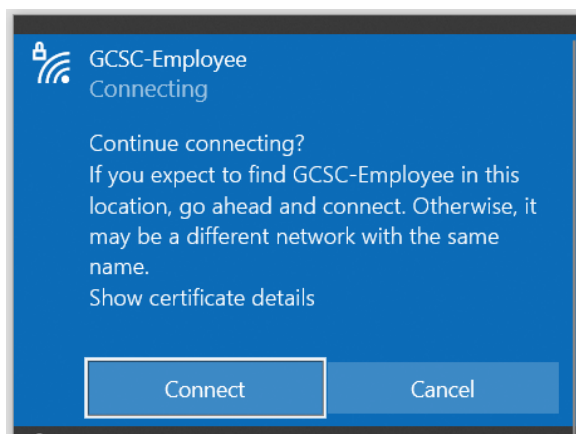

Select SSID:

Tell it to Connect

Enter your User Name and Password (Just like your email)

Select connect
