

ADVANCED COURSE SYLLABUS**I. SEMESTER INFORMATION:**

COURSE INFORMATION: This is a face-to-face version for the MGF 1106 MATHEMATICS FOR LIBERAL ARTS. Topics covered include sets, logic, geometry, combinatorics, probability, and statistics.

CREDIT HOURS: 3 credit hours

PREREQUISITE: Successful completion of developmental courses, appropriate placement test scores, or meet state exemption. A graphing calculator is required. The TI-83/84 are the only allowable calculators for test days. If the student wishes to use any other calculator they must contact their Instructor in advance for approval.

CURRENT SEMESTER: Fall 2023

II. CONTACT INFORMATION:

INSTRUCTOR: Leo Lusk, Associate Professor of Mathematics

INSTRUCTOR TELEPHONE: 850 – 747 – 2854

INSTRUCTOR EMAIL: llusk@gulfcoast.edu

DIVISION CHAIR INFORMATION: Ms. Angelia Reynolds 850 – 872 – 3852

ACADEMIC TECHNOLOGY SPECIALIST/ADMIN ASSISTANT: Scott Spencer 850 – 747 – 3229

III. APPROVED COURSE MATERIALS & RESOURCES:

TEXTBOOK:

- Mathematics for the Liberal Arts (This is a free online textbook for the student available on Canvas beginning the first day of class. The student may print it or read it online.)

CALCULATOR:

- The Mathematics Division at Gulf Coast State College using only the TI-84 or TI-83 calculators in its courses. This maintains continuity throughout the student's academic time within the math curriculum.

IV. CURRICULUM:

COURSE DESCRIPTION: MGF 1106 Mathematics for Liberal Arts is a 3-credit hour course. Topics covered include sets, logic, geometry, combinatorics, probability, and statistics.

LECTURES/QUIZZES: Lectures for this course will be delivered via video instruction. Video instruction for the course will be found on our current Learning Management System (LMS) CANVAS. Your homework quizzes, which are based on these lectures, will also be found on CANVAS. The homework quizzes are an important part of your course grade. The student is strongly encouraged to do these quizzes several times and complete them well ahead of their scheduled deadline dates as no extensions are granted.

REVIEWS FOR TESTS: This course offers reviews for each test. The reviews will not count as any part of the students grade but can certainly have a positive impact on their grade. The reviews are essentially 'practice tests' giving the student a glimpse of what the test may be like.

TESTS: There will be four (4) unit tests in this course. A calculator is permitted and encouraged to be used on every test. This course has no comprehensive final exam.

Besides the online quizzes and tests on our CANVAS Home page, the student you will find the textbook for this course; video instruction (as mentioned); additional course information. Your grade for this course will be determined by your scores on the quizzes and tests. (See Item VII.) Tests and quizzes are computer generated and are different but similar for each student.

PEDAGOGICAL PRACTICES EMPLOYED:

- The online video instruction uses the exact same notes as do the F2F classes. Often within these video lectures the instructor will pause when examples are asking for you to “Try It Yourself” come up. You should pause the video and try it yourself. When you resume the video, the instructor will walk through the solution as done on all other examples.
- Repetitive drill and practice homework quizzes for the students to take are available online. You as a student are encouraged to do these 5-question quizzes multiple times to ensure understanding.
- There are test reviews designed to assist students in gauging their preparedness prior to taking a test.

BROAD-BASED GOALS OF THE COURSE:

- To develop the students mathematical problem-solving skills
- To enhance the student’s calculation skills
- To deepen the students logical and deductive reasoning skills
- To present a larger picture of what mathematics is and to show the student that mathematics is more than just an academic discipline, it is a human endeavor

APPROVED STUDENT LEARNING OUTCOMES:

1. Understanding sets and set operations; solving application problems using sets.
2. Understanding logic, symbolic forms, and truth tables; determining the validity of arguments.
3. Learning basic concepts of geometry including formulas for two and three-dimensional figures.
4. Learning ways to do systematic counting, permutation counting, and combination counting.
5. Understanding the basics of probability theory and applying this to application problems.
6. Learning basic statistics (mean, median, mode, standard deviation, etc.) and normal distributions.

V. WHAT THE STUDENT CAN EXPECT OF THE INSTRUCTOR:

AVAILABILITY: The student can expect the Instructor to be available to answer questions regarding the course material, quizzing, or testing. During the summer semesters, this instructor can be reached via Canvas email.

LEARNING MANAGEMENT SYSTEM EXPLAINED: The student can expect the Instructor to fully explain how they will use the College’s current LMS: CANVAS, within this course. A video walk-through of the course layout in CANVAS can be expected, and clear explanation of how to access all course material therein: the textbook, lecture notes, video instruction, quizzes, review tests, and tests, will be given.

COMMUNICATION: The student should communicate with the Instructor primarily using the CANVAS email. The student can expect to receive a reply within a 24-hour window, with the exceptions of Saturday’s, Sunday’s, and holidays. The student may also call and leave a voicemail which will be answered when the Instructor is in their office.

VI. EXPECTATIONS OF THE STUDENT:**ACCOUNTABILITY:**

The student will be held accountable for all material covered in this course. It is expected that the student does all their homework quiz assignments and is fully prepared for each test posting a good score. Extremely low scores will not be acceptable. "Extremely low" scores for this course will be defined as raw scores $\leq 40\%$. No partial credit will be added to these scores.

ACADEMIC INTEGRITY:

Honest participation in academic endeavors fosters an environment in which optimal learning can take place and is consistent with the college's mission. Academic misconduct, including cheating or plagiarism, is destructive to the spirit of an educational environment and therefore will not be tolerated. "Cheating" includes, but is not limited to, the use of any unauthorized assistance in completing course work. "Plagiarism" includes, but is not limited to, the use by paraphrase or direct quotation of the published or unpublished work of another person without full and clear acknowledgment. Sanctions for incidences of academic misconduct, depending on the severity of the incidence and/or its repetition, may range from receiving an F grade (or zero) for the test, assignment, or activity, to failure of the course, to suspension or dismissal from the program or the College.

ACCESSIBILITY STATEMENT:

Gulf Coast State College supports an inclusive learning environment and is committed to providing equal access for all students. This applies not only within the classroom setting, but within the design and quality of the website(s) used by the Instructor. If there are aspects of the instruction or design of this course that hinder your full participation, reasonable accommodations can be arranged. Prior to receiving accommodations, you will need to register with STUDENT ACCESSIBILITY RESOURCES. Appropriate academic accommodations will be determined based on the documented needs of the student. For information regarding the registration process, email sar@gulfcoast.edu or call 850-747-3243. Once registered, students should schedule an appointment with the professor as early in the semester as possible to share the verification form and make appropriate arrangements.

TRIO STUDENT SUPPORT SERVICES (SSS) STATEMENT:

TRIO is a federally funded grant program which serves first generation students (neither parent has a 4-year bachelor's degree), low-income students, and/or students with disabilities achieve their academic goals. Student success is at the center of everything we do in our program. We offer academic advising, 24/7 online tutoring in most subjects, textbook and computer/technology loans, transfer and cultural trips, assistance with financial aid applications and scholarships, career exploration and dedicated computer lab and study area. All services are FREE to SSS program participants. Visit <https://www.gulfcoast.edu/current-students/trio/> to apply online or call (850) 913-2937 for more information. SSS is in the Student Union West (SUW), room 089.

WITHDRAWALS: There are two types of withdrawals.

1. **STUDENT WITHDRAWAL** – Students wishing to withdraw from the course must complete a withdrawal form and submit the form to the Office of Enrollment Services before the scheduled withdrawal deadline as published in the college catalog. The last day to withdraw from any class is to be determined but is usually the week following midterms. Withdrawals cannot be processed beyond that date.
2. **ADMINISTRATIVE WITHDRAWAL** – Students who do not make academic progress in this course will be withdrawn. At least one quiz must be completed within the first few days of the class opening

or the student will be withdrawn as a “NO SHOW”. A student missing two (2) tests can be withdrawn for failing to attend and make academic progress.

CONSEQUENCES OF WITHDRAWALS: Two withdrawals are permitted per credit course. After that, a grade will be assigned. Please be concerned about withdrawals. When admitting students into certain programs, universities may calculate withdrawals as grades. It is your responsibility to verify the effects of enrollment and/or withdrawal upon your financial assistance.

VII. MEASURING STUDENT PERFORMANCE:

TESTS:

The student will have four (4) unit tests to complete. (As mentioned before, this course has no comprehensive final exam.) Each of the four (4) unit tests are weighted at 20%. A student who misses submitting a test by the stated deadline may still take that test ‘Late.’ However, ‘Late’ submissions do not receive any partial credit points.

GRADE DETERMINATION:

The students four tests and overall quiz average determines the students weighted average and thereby their course grade. The weighted average is determined as follows:

WEIGHTED AVERAGE DETERMINATION:

$0.20 \times \text{Test 1 score}$
$0.20 \times \text{Test 2 score}$
$0.20 \times \text{Test 3 score}$
$0.20 \times \text{Test 4 score}$
$0.20 \times \text{Quiz Average}$
Sum of the above = Weighted Average

LETTER GRADE DETERMINATION FROM WEIGHTED AVERAGE:

Wt. Average	Grade
90 – 100	A
80 – 89.9	B
70 – 79.9	C
60 – 69.9	D
Less than 60	F

PARTIAL CREDIT:

Each test will have 25 questions or answers. The computer will grade your test upon submission. Following the submission of all tests your Instructor will review each test. At that time, partial credit points can be added to your test score for incorrect answers thereby improving the grade given by the computer. Note that partial credit points will not be given for unanswered questions or nonsensical answers to questions. How partial credit is applied will be shown in the course syllabus available at the beginning of the semester. The student should make a sincere attempt to answer every question.

MISSED QUIZ DEADLINES:

Quizzes must be submitted by their scheduled deadlines. There are no extensions for quiz assignments. Once “closed” they remain “closed”. There will be ample time between the beginning of the course and each quiz deadline – usually 3 weeks. You are urged to not squander that time. Use it wisely and do not delay in completing your quiz assignments, preferably ahead of their scheduled availability dates. The quizzes are a fixed and important part of your grade. Do your best on them settling for nothing less than 4/5 on each. Your quizzes are not subject to being ‘dropped’ or ‘replaced’. Each one counts.

MISSED TESTS:

As stated previously, a student who misses the deadline for submitting a test may still take and submit that test. Tests submit 'Late' receive no partial credit. A student who misses 3 test due dates can expect to receive a grade of zero (0) for the third missed test. Likewise, a fourth missed test will be a grade of zero (0).

RETAKE OF ONE TEST:

At their Instructors discretion a student may be permitted to retake one test in the hopes of improving their course grade. This retake will be given during "finals week" for the current semester.
